DATA VISUALIZATION WITH POWERBI AND TABLEAU

Practical – VII

Roll No.: T038	Name: Akansha Pritam Ranade
Class: TYIT	Batch:1
Date of Assignment: 27-08-2026	Date/Time of Submission: 27-08-2026

Aim : Creating Interactive Dashboards and Data Stories

a) Design a basic dashboard layout using sheets

The screenshot displays the Tableau Desktop interface. On the left, the 'Connections' pane shows 'matches' and 'deliveries' as text files. Below it, the 'Files' pane lists 'deliveries.csv' and 'matches.csv'. The main workspace shows a diagram with two blue boxes labeled 'matches.csv' and 'deliveries.csv' connected by a line. Above this diagram, there are radio buttons for 'Live' (selected) and 'Extract'. Below the diagram, a table structure is visible with columns 'Id' and 'Match Id'. The table has a header row with '# Id' and '# Match Id', and a data row with 'Id' and 'Match Id'. The table is titled 'Name deliveries.csv'.
